

*A
cont'd.*

62. (New) The method of claim 61, wherein the first conductive layer is metal.

63. (New) The method of claim 62, further comprising:
depositing and patterning a second conductive layer in contact with the first conductive layer and the PIN diode, wherein the second conductive layer is a transparent conductor.

REMARKS

This is a preliminary amendment correcting omissions in the section entitled Cross-Reference to Related Application and adding claims 19 through 63. Entry hereof is respectfully requested.

New claims 19-63 were added to more fully define the Applicants' contribution to the art.

If there is a fee occasioned by this amendment, including an extension of time fee, that is not covered by an enclosed check, please charge any deficiency to deposit account No. 23/2825.

Respectfully submitted

Sigurd Wagner et al. Applicants
